

Server Monitoring

Agent is Installed

The Server is then scanned to see what ports, processes, and services are currently in use

Based on the results of the scan the default monitoring policies are applied

Application:

- Microsoft Exchange Directory
- Microsoft Exchange Event Service
- Microsoft Exchange IMAP4
- Microsoft Exchange Information Store
- Microsoft Exchange Internet Mail Service
- Microsoft Exchange Management
- Microsoft Exchange Message Transfer Agent
- Microsoft Exchange Routing Engine
- Microsoft Exchange Site Replication Service
- Microsoft Exchange System Attendant

Performance:

CPU, Memory, Logical Disk, Paging File

24X7 monitoring of all applications and performance parameters

In the event of an application failure or performance issue the Network Operations Center is immediately notified and remotely resolves the issue.
